The Pilot Scheme:

Motorist compliance with the 120km/h motorway speed limit was

BELOW 70%

Motorist compliance with the 120km/h motorway speed limit rose but remains

Analysis of traffic data by Transport Infrastructure Ireland shows:

TYPICALLY

motorists speed on low traffic volume sections of the motorway network throughout the country: Speed + rain/hail showers = increased risk of serious accidents

MOTORISTS ////

are not adequately altering their speeds in response to adverse weather conditions: Heavy rain/ low road temperatures
